PERSONAL PROFILE STATEMENT

As a dedicated software engineering student specializing in Java, I aim to deliver innovative solutions exceeding client expectations. With a solid foundation in C# and diverse technical skills gained from Udemmy courses, I tackle complex programming challenges effectively. My consistent academic performance reflects my commitment to quality and attention to detail. Furthermore, my experience in team settings, including leadership roles, has enhanced my communication and collaboration skills. I'm eager to leverage my expertise to contribute meaningfully to the software engineering field.

EDUCATION

Eduvos

2021 – 2023

Bachelor of Science in Information Technology (Software Engineering)

- Research Project: Mobile Application to try and mitigate food wastage
- Research Project Team Leader

Achievements:

- **First Year Distinctions:** Advanced Information and Computer Skills; Computer Network and Security, Human-Computer Interaction; Introduction to Information Systems; Procedural Programming (C++); Mathematics 1A; Technical Writing and Communication; Business English.
- **Second Year Distinctions:** Database Systems, Design and Management; Software Process, Architecture Design and Quality Assurance; Programming in Java; Systems Analysis and Design; Internet Server Management; Network Security; Database Management Systems; Data Structures and Algorithms in Java.
- **Third Year Distinctions:** Web Development and e-Commerce; Research Project: Mobile Application and Web Services; Object Orientated Systems Analysis and Design; Industry 4.0; Soft Skills for IT Professionals; Enterprise Programming in Java; Operating Systems; Logistics and Supply Chain Management; Cloud Computing: A Practical Approach.

Eduvos

2019 – 2020

Higher Certificate in Information Systems and Software Design

- Completion of Higher Certificate in Information Systems Engineering
- Focus: SQL, C#, Kotlin

Achievements:

- **Distinctions:** Personal Skills Development , Android Development

CTI

2010

Qualification: Higher Certificate in Information Systems Engineering

Achievements:

- **Distinctions:** Computer Literacy - Microsoft

Afrikaans Hoerskool Germiston

2009

National Senior Certificate

Subjects: English Home Language, Afrikaans Additional Language, Mathematics, Life Orientation, Life Sciences, Physical Sciences, Tourism.

Achievements:

- **Distinctions:** Life Orientation, Tourism
- Elected Prefect 2008 – 2009

SKILLS AND COMPETENCIES

Technical skills:

- MS Office
- Programming languages: Java, C#
- Framework: Bootstrap
- IDE's: IntelliJ, Visual Studio, Vs Code
- Version control systems: Git/ GitHub
- Web development technologies: HTML, CSS, JavaScript
- Relational database management systems (RDBMS): SQL Server, MySQL

Transferable skills:

- Effective communication:
 - Experience leading team meetings and projects
- Detail-oriented:
 - Consistently delivered high quality work
- Time management
 - Met project deadlines
- Adaptability:
 - Smooth transition from C# to Java
- Strong problem-solving skills
 - Proficient in diagnosing and resolving coding bugs and glitches, ensuring software reliability and performance

ACHIEVEMENTS

Udemy

- Udemy certificate in 100 Days of Code – The Complete 2024 web Development Bootcamp – **Present**
- Udemy certificate in C# Basics Intermediate – Classes, Interfaces and OOP - **2022**
- Udemy certificate in C# Basics for Beginners – Learn C# Fundamentals by Coding - **2019**

Golden Key Society

- Invited to join Golden Key International Honour Society

WORK EXPERIENCE

Freelance Web Developer

2024 - Present

Web Development and Design

Project:

Designed and developed an e-commerce website for client within the fashion industry.

- Collaborated with the client to determine project scope and requirements.
- Designed a custom website as well as branding using Figma and Canva.
